

FACE RECOGNITION HRMS

Attendance & HR Management System

One system for attendance, HR, payroll and contract labour.

Problems With Old Attendance Systems

Old attendance systems all have the same five problems. You have probably seen them yourself.

1

Long queues at the gate

The old machine takes one person at a time, so a long line forms at the start of every shift.

2

People punch in for friends

Cards and fingerprints can be shared. Someone marks a friend present, and you pay for work nobody did.

3

Wrongly marked as gone

Step out for a few minutes and the system marks you gone for the whole day. You lose a full day of pay.

4

No single view of all sites

If a worker moves between two sites, there is no single record. Head office has to guess the hours.

5

Everything stuck in Excel

Registers, sheets and hand-typed totals. Slow, full of errors, and hard to trust.

Old systems waste your time at the gate, add to your wage bill, and pile up hours of manual work.

Before & After

The same two problems, shown before and after switching to the system.

Problem 1 The morning gate queue

BEFORE

Old biometric gate: workers punch one by one, long queue every morning.

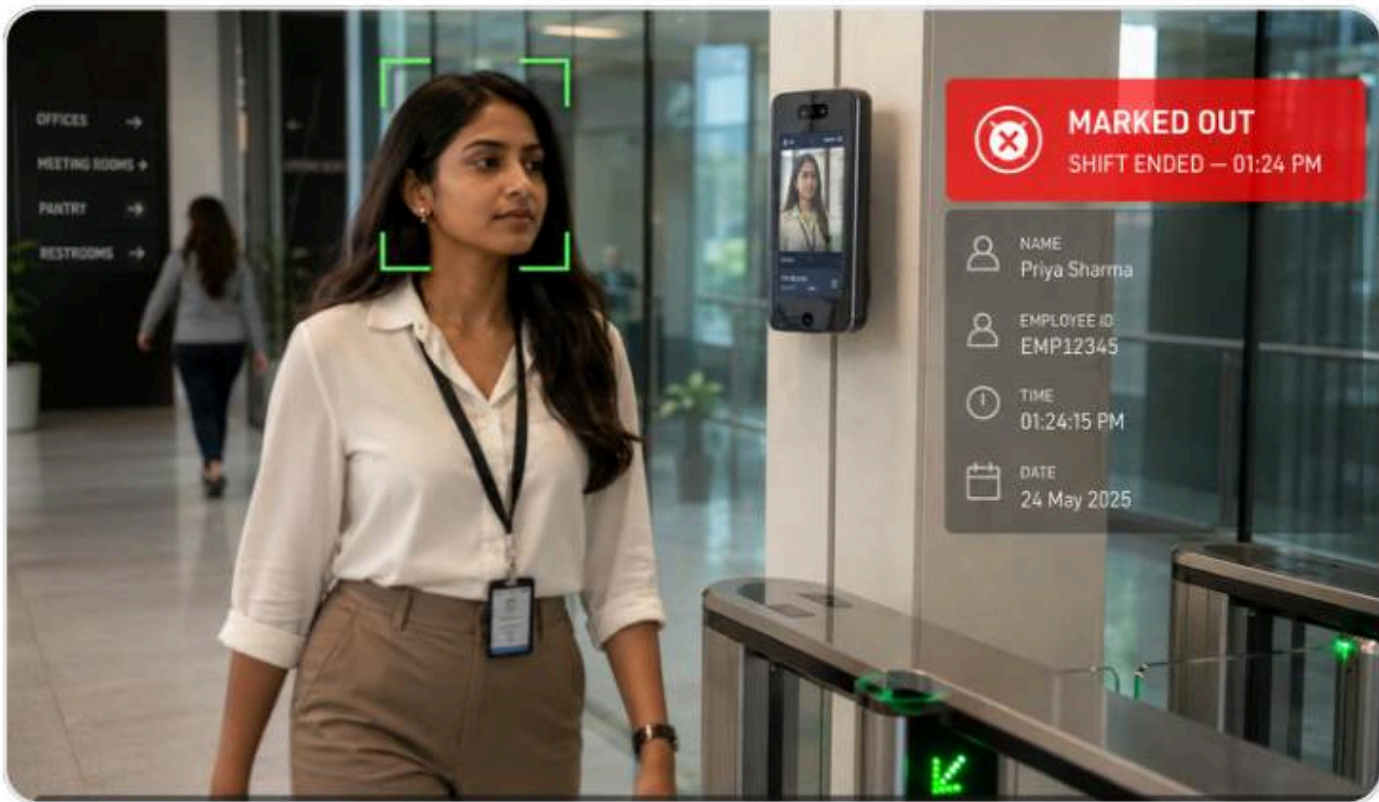

AFTER

Face recognition: many people cleared together, the queue is gone.

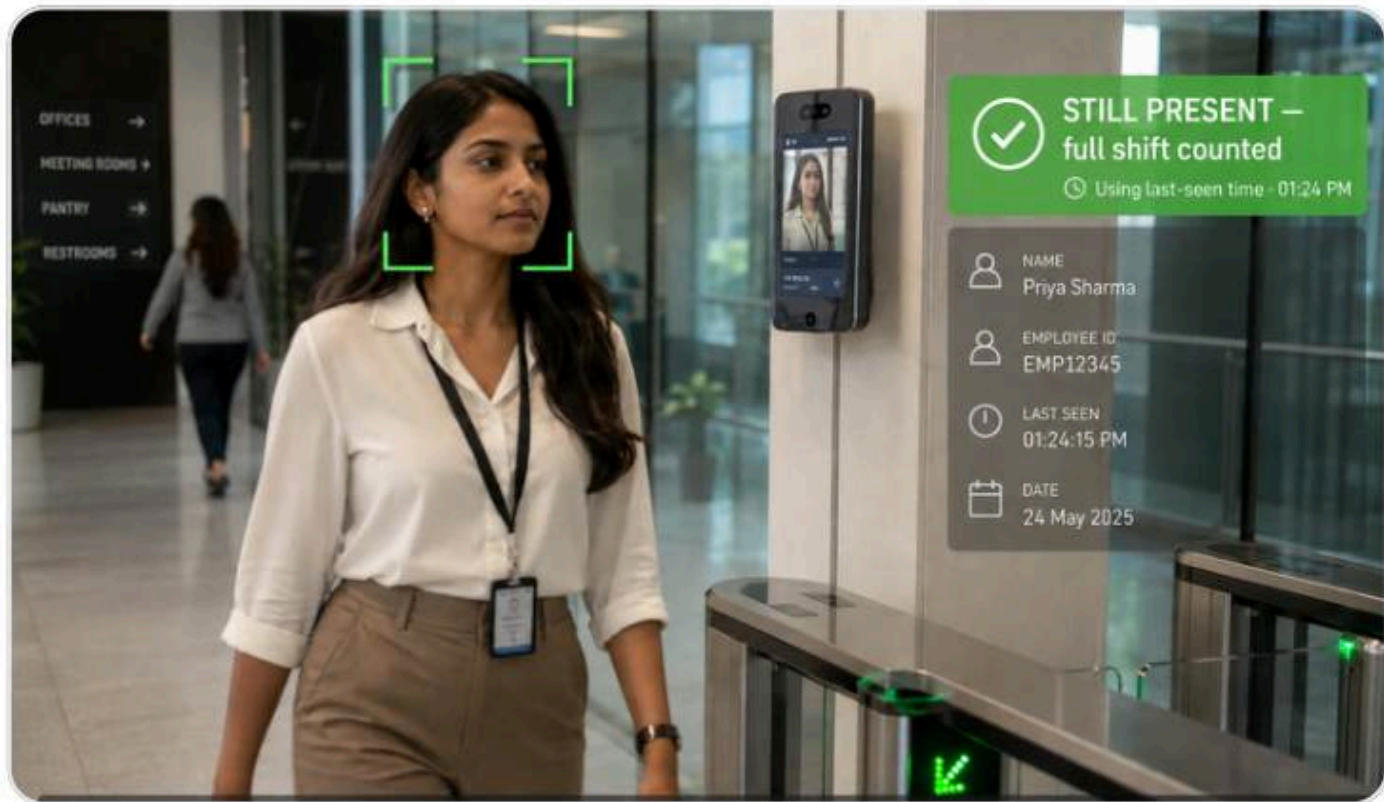

Problem 2 The false OUT

BEFORE

Old system: a worker steps out for a task, gets marked OUT, loses the shift.

AFTER

Our system: the last seen time is used, so the worker stays present all day.

Old System vs Our System

✗ OLD SYSTEMS	✓ OUR SYSTEM
✗ THROUGHPUT One face at a time. Queues pile up every shift.	✓ THROUGHPUT Reads every face in the camera at once, so the queue disappears.
✗ REAL OUT TIME A second glance marks you OUT. Half a shift vanishes.	✓ REAL OUT TIME Your last-seen time is your OUT. Step out for a task, stay counted.
✗ MULTI-PLANT Each plant is its own island. Head office guesses payroll.	✓ MULTI-PLANT One system tracks your hours across every site you work.
✗ ONE SOURCE OF TRUTH Attendance trapped in scattered Excel sheets.	✓ ONE SOURCE OF TRUTH Everything lives in one system. No spreadsheets, and a full history you can trust.
✗ IN EVERYONE'S HAND An HR-only terminal. Workers kept in the dark.	✓ IN EVERYONE'S HAND Android and iOS app for every employee, HR and staff.
✗ LIVE OVERSIGHT No live view. You find out at month-end.	✓ LIVE OVERSIGHT A live Watchman dashboard shows every punch as it happens.

Every point above is a real problem this system solves.
